Quick Installation  
Guide

## System Requirements

### Mac Users

#### Hardware:

- eSATA or
- USB (1.1 or 2.0) port(s).
- PowerPC or Intel processor
- Mac OS 9, X, Leopard or Snow Leopard

**Min. recommended memory: 512 MB RAM**

### PC Users

#### Hardware:

- eSATA or
- USB (1.1 or 2.0) port
- Microsoft Windows 2000, Me, XP, Vista, or Windows 7

**Min. recommended memory: 512 MB RAM**

\*If you wish to utilize FireWire or eSATA ports and your computer does not support such interfaces you may be required to purchase an interface as an optional device.

## Connecting the Drive

1. Insert the digital key (key-token) in the back of the Commander 2UE for authentication First.

### Connecting via SATA port:

2. Connect one end of the SATA cable to the SATA ports of your computer and then the other end to the SATA port in the COMMANDER 2UE device.

NOTE: eSATA port does not provide power to the drive. Therefore you must connect the SATA cable FIRST, then connect the USB Cable to power the drive. If USB is connected first, the computer will read the device as USB and not as SATA.

### Connecting via USB port:

3. Using the two ends of the USB “Y” cable, connect them to the USB ports of your computer (or via Power Hub that is connected to your computer) and the other end to the USB port in the COMMANDER 2UE. After a few seconds, the light will turn blue and a Rocstor HD icon will show on “My Computer” folder under the Windows OS.

NOTE: For security reasons REMOVE (and store in safe place) the Key-token once access to the data is granted. As long as the 2UE device is ON, the data is accessible. At this stage, the COMMANDER device acts as any other standard external drive on the market. Once the drive is powered OFF you are required to insert the key-token and repeat the procedures for authentication again.

4. The Hard drive is preformatted for Plug-and-Play operation. After a few seconds, a Rocstor HD icon will show on “My Computer” folder under the Windows OS. Under the Mac OS, the Rocport HD will appear on the “Desktop.”
5. Click (double click) on the Rocstor HD icon to access the drive.

You may also refer to the Rocstor website to view or download a full version of the COMMANDER 2UE manual. [www.ROCSTOR.com](http://www.ROCSTOR.com)

### General Notices

- Consistently make multiple backup copies of your data for your protection. Hard disk drives are subject to failure at any time.
- Rocstorage, Inc. shall not be held liable for loss of data or the restoration or recovery of data on the device. Please see complete Limited Warranty Information in the User's Manual or on the Rocstor website ([www.rocstor.com](http://www.rocstor.com)) for further details.

### Capacity Disclaimer

Actual accessible hard drive capacity will indicate up to 10% lower than stated under different Operating Systems and formatting. Therefore, a 500GB capacity drive may show up as a 450GB drive (approximately.)

### Warranty Period

The Limited warranty period for Commander hard drives is two years for parts and labor.
