Secure encrypted ruggedized mobile hard drive

Posted on 05 January 2010.

BOOKMARK

Rocstore announced its new line of Rocsecure Commander 2 encrypted external hard drives.

The first of its kind in ruggedized design, the Commander 2 series pocket drives are designed to satisfy the sophisticated military and government requirements, as well as consumers.

The ruggedized and enduring aluminum chamber and shock-absorbent (patent in process) casing protect the drive against impact damage, accidental drops and bumps. These outstanding design features prolong product life and protect data integrity under toughest working environments.

Operating with Mac OS, Linux and Windows, this external drive offers storage capacities ranging from 160GB to 640GB. In addition to encryption security, this will allow users the ability to quickly, and with no down time in encryption or decryption, archive valuable data, large video or audio files or simply backing up important data. The bootable features of this hard drive allows the user to boot, access and operate all programs and data via any another computer under the same OS environments.

Special Features

- Ruggedized Pocket size external storage drive
- AES 256-bit encryption, ECB mode
- Hardware-based encryption (not a software embedded on a chip)
- Real-time (No down time in encryption or decryption)
- No software required
- Robust and tough aluminum casing
- Enhanced shock-absorbent casing despite its small size
- Incorporates SATA hard drive
- USB and eSATA connections
- Enables USB bus powered and bootable
- Speeds up to 3,000 MB per second
- Cross-platform compatibility (Mac or Windows or Linux)
- Includes all necessary cables.

Specifications

- Capacities: 250GB, 320GB and 500GB (750GB and 1TB will be available in 2nd and 3rd Quarter, 2010)
- Rotational speed available with 5,400 or 7200 rpm
- Interface: High speed USB 2.0 (1.1 compatible) and eSATA
- Transfer rates: Up to 480Mbps/s USB and up to 3,000Mbps/s eSATA
- Dimension: 2.95 x 5x 0.63 (0.75) inch 75 x 12.7 x 16 (19) mm
- Weight: 0.5 lb (0.2Kg)
